

# NOBERT LANGAT

Full-stack software developer with **6+ years of coding experience** and over **2 years of professional experience** in building scalable, user-focused digital solutions. Skilled in **React, Next.js, Typescript, Tailwind CSS, and ASP.NET Core**, with a strong focus on crafting seamless **UI/UX experiences** and robust backend systems. Proven expertise in developing RESTful APIs, and implementing modern architectural patterns. Known for creativity, problem-solving, and driving innovation through automation and efficient development workflows.

## REFEREES

Available upon request

## EDUCATION

### DEGREE

**Moi university** — 2017-2022

BSc. Informatics – second class upper division

### HIGH SCHOOL

2013-2016 - OSAS Boys Sec School – B plain (APG 61)

## EXPERIENCE

### 1. Full Stack Software Developer - Greencom Enterprise Solutions

[Nairobi, Kenya](#) — June 2024 up to date

#### Accomplishments:

- ✓ Reduced development time by **85%** by developing an **AI-powered OData MVC Code Generator** automating ASP.NET MVC code generation from Business Central OData schemas and business central functions
- ✓ Collaborated with developers to refactor and modernize legacy portals from ASP.NET Framework MVC to **ASP.NET Core APIs and React + Typescript + Tailwind + ShadCN**.
- ✓ Developed **enterprise portals** (employee self-service, e-recruitment, e-procurement & CRM) integrated with **Microsoft Dynamics 365 Business Central ERP**.
- ✓ Built and maintained RESTful APIs ensuring security, scalability, and performance.
- ✓ Implemented **MVC architecture** and optimized workflows for faster deployment and improved user experience.

## FEATURED PROJECTS

### 1. Full-stack Code Generator

AI-powered OData MVC code generator that automates the generation of production-ready ASP.NET MVC code from Business Central OData schemas and SOAP function definitions

Demo: <https://mvcgenerator.vercel.app/>

### 2. Portfolio Website

A revamped personal portfolio website with modern UI/UX.

Demo: <https://nobertdev.vercel.app/>

### 3. Modern Landing Page (Gym Website)

A modern gym website landing page with a sleek UI, modern UI/UX, animations and responsive design.

Demo: <https://fitness-zone.netlify.app/>

A full list of my projects are available on my portfolio [nobertdev.vercel.app](https://nobertdev.vercel.app) and GitHub [github.com/NOBERT167](https://github.com/NOBERT167).

## CERTIFICATIONS

**Complete ReactJs Course – Basics to Advance** (Udemy) - [Credentials](#)

**React + Redux** (SoloLearn) - [Credentials](#)

**Learn to Code for the Web** (FutureLearn) - [Credentials](#)

## TECHNICAL SKILLS

**Front-end:** Next Js, React, Tailwind CSS, JavaScript, HTML & CSS, Shadcn,

**Backend:** ASP .Net Core, Asp.Net Framework MVC, Python (FastAPI)

**Databases:** SQL, PostgreSQL, MySQL, EF

**UI/UX Design:** Figma & Adobe XD.

**VCS:** Git & Github

**Testing:** vitest, Jest.
